Инструкция по пользованию сайтом

Подписка на изменения

- Если необходимо получать **уведомления об изменениях** на страницах, то надо нажать на кнопку “Подписаться” внизу конкретной страницы. В таком случае на email, указанный при регистрации на этом сайте будут приходить письма с кратким списком изменений. Очевидно, что такая подписка работает только для зарегистрированных пользователей¹⁾.

RSS подписка

- На сайте есть **RSS потоки**, содержащие список последних изменений по всему сайту и по конкретному разделу - используйте значок RSS в адресной строке браузера или кнопку “RSS XML FEED” в самом низу страницы:

Поиск и навигация

Найти нужную страницу на этом сайте можно несколькими способами:

1. Открыть **полную карту сайта** (кнопка **Содержание** в самом низу страницы)
2. Воспользоваться **Поиском** - все страницы на сайте попадают в зону поиска (находится в верхнем правом углу страницы)
3. Выбрать уже посещённую страницу из списка последних (в верхней части экрана)
4. Для того, чтобы из любого места сайта попасть на первую страницу, надо нажать надпись “**Кибби.ru**” в левом верхнем углу.
5. Надпись с названием текущей страницы в правом верхнем углу ведёт на список обратных ссылок - список страниц, которые ссылаются на текущую.

Редактирование

- Это полностью редактируемый сайт. Для того, чтобы принять участие в работе надо нажать на кнопку “**Править**” рядом с интересующим фрагментом или кнопку “**Править страницу**” в левом верхнем углу.
-  Некоторые страницы становятся доступны только после **регистрации на этом сайте**. После этого можно **войти на сайт** (кнопка внизу страницы). Часть страниц, например эта,

доступна для правки только определённым пользователям.

- Документы поделены на две логические части - собственно **текст** и **обсуждение**. В первой части находится содержимое документа, а вторая предназначена для комментариев и ведения дискуссий.
- При редактировании можно использовать различное **форматирование** - выделять **жирным**, *курсивом*, подчёркиванием, оформлять текст в виде таблиц, или нумерованных и нелюмерованных списков. Более подробную информацию можно получить в [документации по синтаксису](#) и опробовать полученные знания в [специальном разделе](#).

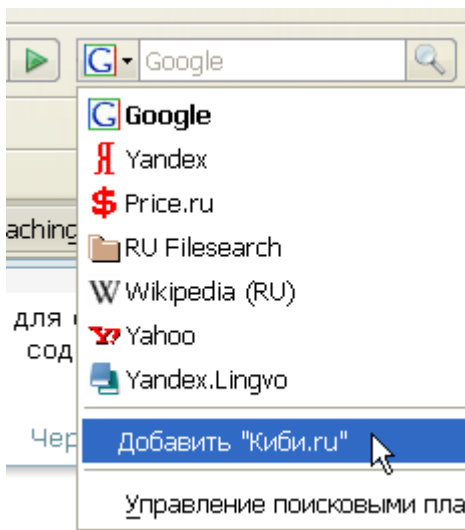

Создание страницы

Создать новую страницу можно несколькими способами:

- Отредактировать подходящую уже существующую страницу, вставив ссылку на новую страницу. После сохранения страницы появится ссылка красного цвета, пройдя по которой нужно нажать на кнопку "Создать страницу"²⁾.
- Ввести имя новой страницы в поле для **поиска**, в результатах поиска нажать на кнопку "Создать страницу"³⁾

Поисковый плагин

- **Кибн.ru** можно добавить в список поисковых плагинов⁴⁾, чтобы осуществлять **быстрый поиск** по этому сайту. Для этого выберите соответствующий пункт в меню поисковых плагинов:

Аватарки

- Для того, чтобы в комментариях появлялся не странный монстр, типа  или , а **фотография или аватар** автора сообщения (например ) , надо зарегистрироваться на

сайте [Gravatar](#).

~~BOOKMARKME:off~~

1)

Возможность подписаться на изменения - это основной момент, ради которого стоит пройти регистрацию

2)

Вариант наиболее правильный, так как новая страница получается связанной с уже существующими

3)

Таким образом будет заведена страница, на которую нет ссылок с других страниц. Она будет доступна только через список всех страниц или через поиск по всему сайту

4)

поисковые плагины поддерживаются в Firefox и IE 7.0
